"When Senator Sherman resigns to enter the cabinet of President McKinley, I will appoint to succeed him, the Hon. Marcus A. Hanna of Cuyahoga county, to serve until his successor is chosen by the LXXIIIrd general assembly of the state. I trust this action will meet with the approval of the people.

## FOREIGN WARSHIPS FIRE ON GREEKS

### SIX BOATS BOMBARD INSURGENT CAMP.

Three British, One Italian, One German and One Russian Ship Join in the Attack—Appeal Made to the Czar of Russia—Demonstration at Athens.

Canea, Island of Crete, Feb. 22.—The united squadron has bombarded the insurgent camp outside of Canea. The foreign admirals have warned Col. Vassos, the commander of the Greek forces on the island of Crete, of their intention to attack his troops with four men-of-war anchored off his camp, Agioli Theodoroi, should he attempt to advance to the interior of the island.

At 4:30 o'clock Sunday afternoon signals were made to Dryad, Harrier and Revenge, together with one Italian, one German and one Russian ship, to open fire on the Cretan position, where the Greek flag was hoisted some days ago. The British ships fired forty and the foreign ships thirty shells at the village, and ruined the house held by the Cretans. The flag was soon lowered, and the order "cease fire" sounded after ten minutes.

An engagement has occurred just above the village of Mourmies, between the insurgents and a Turkish band.

At 4:45 the insurgents at Akotiri, having attacked the Turkish garrison at Halepa, the joint fleet bombarded the Cretans for twenty-five minutes. The insurgents fled, taking their flag with them.

King George has ordered Col. Vassos to offer safe conduct to Canea for all Turkish garrisons besieged by Christians. Col. Vassos made the offer to the Voukolies garrison. The troops at the garrison refused to leave without arms, and the fortification, therefore, was bombarded.

British torpedo boats have captured and brought to this port the small Greek steamer Laurium, which was carrying victuals and tents for the insurgents.

The forts fired two rounds of blank cartridges yesterday at the Greek gunboat Peneus. A Turkish frigate also discharged blank shots at the Greek. The Greek gunboat Peneus quickly replied to the blank shots fired by the Turkish frigate. The frigate then withdrew from the scene of operations.

The German flag was hoisted on the ramparts here on the arrival of the cruiser Kaiserin Augusta.

Princess Marie of Greece also telegraphed her fiancé, Grand Duke George of Russia, that the action of the powers against Greece was infamous."

Another dispatch to the Daily Mail from Berlin says: "The Nord Deutsche Allgemeine Zeitung asserts that the Turkish cabinet last week decided to declare war on Greece, but the sultan vetoed the decision on account of the finances of Turkey."

### Demonstration at Athens.

Athens, Feb. 22.—Over 40,000 persons participated in a demonstration Sunday on University square in favor of the union of Crete with Greece. The greatest enthusiasm prevailed. ## THE CLOSING DAYS ARE NOW AT HAND

### CLOSING STRUGGLE HAS BEGUN IN CONGRESS.

Promise of An Exciting and Bitter Week—Night Sessions Will Probably Be Held—Appropriation Bills Have Yet to Be Passed—General Capital News.

Washington, Feb. 22.—Congress will adjourn sine die a week from Thursday, and the rush and jostling which mark the closing days of a session has begun. Speaker Reed and the House managers are using all their power and influence to keep down the appropriations to the lowest limit, as they already promise to exceed those of the last Congress, and the increases which the Senate makes will be fought to the bitter end. The general deficiency bill, which has been under consideration for two days in the House, will probably be completed today. An effort will be made to strike out the appropriation of \$1,310,000 for the Southern Pacific, being the amount withheld by the government pending a determination of the liability of that road to the Union and Central roads. It probably will fail, however.

The naval appropriation bill will follow. Owing to the controversy over the price to be paid for armor plate and the numerous accidents to the vessels of the new navy this bill may lead to protracted discussion.

Conference reports probably will begin to appear with a rush before the middle of the week and be sandwiched in at every spare moment. It is likely that before the week is over the House will find the pressure for time so great that night sessions will be entered upon and the daily sessions may be extended at the other end by fixing an earlier hour for meeting.

The only measure of considerable further importance which seems to have a chance of running the gauntlet during the closing days is the Senate joint resolution for an international monetary conference looking to the adoption of international bimetalism. Speaker Reed is said to be friendly to it, and a special order may be brought in for its consideration during the week.

The Senate begins the week by listening to Senator Daniel read Washington's farewell address, but did not observe Washington's birthday to any greater extent. It is expected that very little will be attempted beyond appropriation legislation during the week, and it appears probable that most of the time will be given up to the Indian bill now in progress of consideration and the bill providing for appropriations for the District of Columbia, which will be next taken up.

Senator Sherman has announced his purpose not to again bring up the arbitration treaty for debate so long as the appropriation bills are pressing for consideration, but if there should be a lull in this work he may renew his efforts to secure ratification. There is no probability, however, that this result can be accomplished.

### LOSS OF THE DIAMANT.

German Vessel with a Crew of Thirty-six Men Goes Down.

Boston, Feb. 22.—The German tank steamer Diamant, Captain Wischhausen and thirty-five men was probably lost with all hands 280 miles southeast of Halifax, Feb. 17, or else she has been drifting at the mercy of the elements ever since.

Such is the opinion of Captain Forth of the Furness line steamer Galileo, which has reached this port from London. Captain Forth attempted to tow the Diamant and to save her crew, but the hawser parted and the tank steamer disappeared from view so quickly that it is believed that she went down.

### Papagoes on the Warpath.

Nogales, Ariz., Feb. 22.—The Papagoes are said to have taken the warpath to avenge the death of their principal chief, Pablo, who was killed while confined in the guardhouse at El Pismo, sixty miles west of here. Indications are that present hostilities must end in the absolute death of Indians or a massacre of whites. The Papagoes are reckoned among the most warlike of Mexican dependents.

### Statues to Be Fenced In.

Washington, Feb. 22.—Guided by experiences of inaugural ceremonies in the past, the committee on parks and reservations of the District of Columbia decided to protect the two statues in the city most likely to be damaged by the crowds that will assemble here to see President McKinley inducted into office. Accordingly bids were invited for building fences around the Peace monument and the Lafayette statue. Persons who have studied the question are unanimous in the opinion that the statues must be protected from the crowds in some way.

### Makes Laws on Sunday.

Cheyenne, Wyo., Feb. 22.—The Fourth state legislature, which legally came to a close Saturday night at midnight, did not end until noon Sunday, the session having been extended by a party deadlock upon the general appropriation bill, which was finally passed at 10 o'clock this morning. ### Temporary Lull at Lincoln.

Lincoln, Neb., Feb. 22.—Nothing has been done in the matter of the shortage of ex-Auditor Moore and ex-Treasurer Bartley. The statement had been made by a number of persons that prosecution would be begun inside of two days in case the money was not forthcoming, but it appears to have been decided to give the bondsmen of Moore more time in which to raise the money, \$23,000, that is alleged to be lacking in the treasury.

### Indiana County Infirmary Burns.

Warsaw, Ind., Feb. 22.—The county infirmary, two miles south of this place, was totally destroyed by fire Saturday. The building was just completed at a cost of \$40,000, and was the finest structure of the kind in the state. The fire was caused by a gasoline explosion. The commissioners let a \$10,000 policy lapse sixty days ago, and only \$5,000 was in force. The inmates were got out safely.

### Infirmary Building Burns.

Youngstown, O., Feb. 22.—Mahoning county's infirmary, about six miles from here, was entirely consumed Sunday morning by fire. The home contained 235 inmates, and all escaped with the exception of one of the insane patients, who rushed back into the burning building. The cause of the fire is not known.

## NO CALL FOR SHIPS SENT BY GEN. LEE

### CONSUL GENERAL MADE NO SUCH DEMAND.

Statement Made At Washington That the Alarming Rumor Is Entirely Without Foundation—The Death of Dr. Ruiz Will Be Investigated By the Authorities.

Washington, Feb. 22.—No foundation whatever can be found here for the story that a crisis with Spain is imminent, and that Consul-General Lee, at Havana, has asked for warships. At the White House the rumor is emphatically denied, and the officials of the state and navy departments say there is no reason for apprehension that the case of Dr. Richard Ruiz, who was found dead in his cell in the jail at Guanabacoa, Cuba, will lead to international complications. The matter was brought to the attention of the state department in the latter part of the last week through complaint of some friends of the doctor in this country. The allegations was that the man had been imprisoned beyond the period allowed by the treaty for an American citizen to be kept in jail without the judgment of charges and that he had been murdered by his jailers.

Consul-General Lee was immediately directed by cable to investigate the affair, although it appeared from his dispatches that he had already had his attention directed to the case. The official reports of the Spanish officers are said to show that Ruiz committed suicide while in jail, but this has not yet been communicated to the department of state. Meanwhile, Consul-General Lee is investigating the matter, and the state department is awaiting his report.

In the absence of this the department officials feel no apprehension of any complications, and all stories that warships have been called for by General Lee or that this government is making ready to take forcible measures in the case are without foundation.

### FLOODS IN EASTERN KENTUCKY

Fifty Families Homeless at Middlesboro—Several Persons Drowned.

Lexington, Ky., Feb. 22.—Disastrous floods are reported from many points in eastern Kentucky. Jackson, which is on the north fork of the Kentucky river, 100 miles east of here, is flooded in the lower sections. At Beattyville, a rise of thirty-five feet within the last twenty-four hours has endangered much of the property, including the large Herman saw-mill. The latest account says that the river is still rising at the rate of ten inches an hour. It is feared the great 4,000-foot tunnel through Cumberland Gap will be greatly damaged. At Torrent and Natural Bridge great damage is done. It is still raining throughout that portion of the state, and it is feared the worst is to come.

Middlesboro, Ky., Feb. 22.—A heavy rainfall visited this section Sunday morning, causing Yellow creek to overflow, almost completely submerging the city. Fifty families are homeless, many persons being rescued with difficulty. Water entered all the principal business houses, doing a large amount of damage. Several bridges are washed away.

Late news from Tazewell says that James Chadwell, wife and children, were drowned in Powell's river. At West Pineville the Cumberland river broke over its banks, doing immense damage. Fifty families were forced from their homes. All the mines on the creek are flooded.

### Bandits Put to Flight.

Muskogee, I. T., Feb. 22.—News has been received at the marshal's office here of an attempt to hold up a train on the Iron Mountain road. When the north-bound accommodation train took the siding at Watova two masked men entered the coach and compelled Conductor Wallace to hand over the few dollars in silver that he carried. At this juncture the regular passenger train pulled in. It had been the attention of the robbers, apparently, to hold up the train, but the alarm had been given and a crowd of armed citizens gathered so quickly that the outlaws sought safety in flight.

### Reform Editors at Kansas City.

Kansas City, Mo., Feb. 22.—Reform editors are here in force to attend the conference of the National Reform Press association, called by Chairman Arthur Rozelle of the Missouri state People's party committee, and also secretary-treasurer of the national association. Chairman Rozelle was among the first to arrive. "About 100 delegates will be here," he said, "and everything looks bright for a successful meeting, without reference to the Memphis gathering, which will be entirely ignored. We are in the right, and any overtures for peace must come from the Memphis people."

## GOD REACHES ALL BY DIRECT MEANS

NEVER LEAVES HIS BUSINESS  
TO HIS AGENTS.

Infatigable Being Is Not Afraid Off, But Is  
Close to the People, Rev. Mr. Den-  
nison Says—Rev. Mr. Southworth  
On the Divorce Question—Church  
News.

Rev. Mr. Dennison spoke to a large congregation at the Congregational church Sunday morning from the text Genesis 1:1-5. "And the Lord God called unto Adam and said unto him, 'Where art thou?' Man's comprehension as to the manifestations and appearances of God has differed in different countries and ages. He said some have conceived of him as afar off and as sending his angels to visit men. The Neo Platonists thought of him as sending certain powers to earth to influence men in mysterious ways. There are those who believe that God speaks to men through some prophet, priest or preacher. The Scientist sees God through the workings of nature's laws only. While some hold the belief that God in some remote time wrote a letter to the people of the earth. The Bible being only the 'letter of God.' While all of the above ideas may contain more or less truth, the highest conception of God must include the relationship in which God speaks to us directly. To the young, there comes at times feelings the highest aspirations; to those who are born down with great discouragements, there will surely come from God a ray of hope and encouragement; to the poor and oppressed there comes a sense of relief and comfort; to those in darkness there comes light. All of these are the voice of God speaking to men direct, just as truly as the voice came direct from God to Adam in the garden.

A few applications of this direct dealing of God with man should be born in mind.

First. This gives us the only worthy ideal of God. God's business is entrusted to no agent. He is not far off, but is near to every one of us.

Second. This idea of God gives us the only true motive to honor and serve him. Some of the soldiers in the late war may have joined their regiment from various motives but the true patriot and soldier enlisted solely because his country called him into her service. An individual may enlist under the banner of Christ from a number of motives, more or less worthy, but the true Christian is a follower of his master because the voice of God has called to him personally and directly.

Third. This idea of God gives us the only real foundation for a belief in the mysteries of God. He is best able to comprehend the miracles of God who himself has experienced the greatest of all miracles—a changed heart.

Fourth. This idea of God gives us the only 'true idea of the judgment. Paul, when accused before Festus said, 'I stand at Caesar's judgement seat.' It was thus the privilege of every one to appeal from the judgment of men to the final judgment of God.

The call goes forth to the men and women of today to found their religious life upon this deeper thing the direct witness of God to himself. 'Speak to Him thou, for He hears, and spirit with spirit can meet.'

'Closer is He than breathing and nearer than hands and feet.'

In the evening Mr. Dennison spoke upon the subject, 'The Good Is Enemy to the Best.' The sermon was very helpful and suggestive.

The Christian Endeavor meeting partook of the nature of a patriotic service. Miss Nellie Holmes was leader, and Arthur Newcomb gave an address on the subject, 'George Washington.'

AT THE ALL SOULS CHURCH.  
Rev. V. E. Southworth Talks of the Marriage Problem.

The morning lecture at All Souls was on 'The Joys of the World,' and the evening lecture was on 'The Manly Man and the Womanly Woman; A Study of the Marriage Problem.' A few of the main thoughts are as follows:

'Until some worthy standard of natural right in the marriage relation is generally understood and accepted by the people the sanctity of the home will continue to be polluted with loveless marriages and this matrimonial lottery business with its inevitable sin and suffering will be kept up.'

'Marriage will continue to be a leap in the dark and frequent divorce will be the sorry result, or the life of studied natruth and concealment in the home will be the much sorer result.'

'Sometimes men and women make a failure of marriage. Sometimes they make a success of it. There is no place in life where to make a failure involves so much wretchedness. And there is no place in life where to make a success involves so much real satisfaction.'

'Marriage need never be a failure if people are taught first to appreciate what it involves and to qualify themselves for its high responsibilities and privileges. In the order of nature marriage ought to be one of the grandest inspirations of our life. It ought to lead to the satisfaction of our highest impulses. It ought to be productive of an increasingly high order of life and character.'

'I stand by the marriage relationship and contend for its absolute sanctity.'

'And yet I deny the sanctity of the makeshift combinations which under the guise of legal and ecclesiastical regularity conceal loveless homes and

heartful hearts. I deny the power of church or state to establish between man and woman that intimate interlocking of life which is the only marriage.'

'Marriage is a sacred comradeship of those who love each other in perfect confidence. Such a holy comradeship can never be enjoyed except by the manly man and the womanly woman.'

AT THE BAPTIST CHURCH.  
Rev. F. D. Galpin, of Waupun Preaches To Large Audiences.

On account of the sickness of Professor Vorburg, Rev. F. D. Galpin of Waupun, occupied Dr. Hodge's pulpit yesterday. His morning subject was: 'The Abundant Entrance.' Text: John 10:10. 'I am come that they might have life and have it more abundantly.' To build up a noble life is the grand purpose of man. The mission of Christ was to bring life. Salvation is abundant life. Be sure that you have entered the door. Have a new birth. The Christian should draw from all sources of life. We ought to receive nourishment from the church, the Bible. The wind is full of life and truth. It tells of Christ, the source of life. Get help from prayer, from nature. Did you ever think of the abundance of the forest? Abundant life does not depend upon quantity, but quality. Are you living and yet dead? Make all you can of life. Develop all there is in you. Struggle after God and you will find that life is not a failure. Don't be like a piece of fossilized wood, having a form, but no life. Have Christ in the heart and you will have life. You can't explain the life of a flower but you know it is there. The outward appearance may be different but there is life there. Responsiveness is the secret of life. God appeals to you to receive life. Be broad in your seeking. It is good to be a specialist but first of all be a man, a man, a full rounded, completed man. You can not be that if you reject the life given by Christ. Fulfill the conditions and you will have life. Help others out into the abundant life in Christ.

In the evening the Y. P. S. C. E. missionary meeting was led by Mr. Butterfield. The missionary quartet, Messrs. Whiffle, Snyder, Honeysett and Grove gave some excellent music. Mr. Butterfield gave a very interesting account of missionary work in Chicago.

At the evening service the choir rendered some very fine music. Rev. Mr. Galpin spoke upon the subject of 'Friendship'. Man is reaching out after life and Christ is giving it to us. Text John 15:14. 'Ye are my friends if ye do whatsoever I command you.'

Obedience is a test of friendship. Love must express itself. If I love Christ I will show it. Friendship is an inspiration to obedience to Christ. It makes obedience exact. We will strive to know what our friend would have us do. True friendship for Christ will make us like him, full of life and purity and excellence. Friendship with Christ will give us a vital unity with him, which will produce abundant fruitage. Jesus is a friend in times of trouble and he will not fail you then when you need him most.

Earthly friends may fail us, they may misjudge us, but Christ is a friend that understands us and will never fail. If you have a desire to be like Christ, to have his friendship, he will give it to you.

The engineer is the most important thing about the locomotive, without him it goes to destruction. Let Christ rule and overrule your life and you will be useful to others. Seek the friendship of Christ and develop into a noble life here and hereafter.

The prayer meeting topic for Thursday evening is 'God's will towards man.'

AT COURT STREET M. E. CHURCH  
Rev. Dr. Halsey Talks of the 'Church Home.'

At Court Street M. E. Church, the pastor, Rev. Dr. Halsey, supplemented his sermon yesterday morning, by a little talk on 'Church Home.' The family life, with its varied interests and occupations, should center in the church home, and find in it a place of rest, as well as a place to work. The associations should be restful as well as helpful, because of good fellowship. The ideal church, like the ideal home, is full of peace and love, and ever ready to lend a helping hand.

The text was a sentence of Paul's second letter to his son in the gospel Timothy:

'Having the form of Godliness, but lacking the power.'

The form of Godliness is important, and forms of worship have been recognized since the days of Abel and Noah. Christ himself observed the form of temple worship, and insisted on receiving at the hands of John, the rite of baptism.

The practice of holy living, needs the incentive of some form of worship. It is easier to neglect all form and worldly thought and in life than it is to be devout and an observer of some form of service.

The environments of life have much to do with spiritual success or failure. The scramble for bread and existence is made lighter by observing some form of worship.

Social life and conditions, however harmless needs the restraining influence of forms of worship. The ritual of any church with its rites and ceremonies is helpful. Baptism and the sacrament are both conducive to spiritual growth and development, and are great factors in impressing truths.

The danger times should be carefully noted. The form of Godliness alone does not mean salvation, and a depen-

dence upon mere form is always disastrous.

'The Power of Godliness' is always needed and when this reinforces the form the result is Godliness. This means conversion from sin, regeneration of life, a Christian experience. The power of Godliness comes from God Himself, a Divine gift, it breathes life into dry forms and as results prayer and testimony are freely offered. The soul is inspired with courage and Christian fortitude. Paul possessed this gift of power and carefully cultivated and observed the forms of his day. He developed Christian character of the grandest type.

Dr. Halsey's sermon in the evening was full of good advice for young men. His topic was 'Does it Pay to be Good?'

AT THE PRESBYTERIAN CHURCH.  
Rev. E. H. Pence Preaches On the Subject 'The Best Gift.'

The subject of Rev. Mr. Pence's discourse at the Presbyterian church yesterday morning was 'The Best Gift,' and his text was 1st Corinthians 12:31. 'But covet earnestly the best gifts; yet show I unto you a more excellent way.' There is in all of us a desire that is quite natural to be or to do something great. We each want to take some part in the uplift of our race, whether in the large fields of art, science, and politics, or in no less large but less conspicuous fields of moral and spiritual helpfulness.

To be gifted means power, and with that power we may command. Saint and sinner each wants power—power to use in very different ways, but power nevertheless. Paul said the power to command the purest, loftiest admiration, respect and homage is the power of simple love. You may not have talents, the mental gifts, or the gift of speech which others have, but these are not needed in you to help save the world, to help you do your part, or God would have given them to you. The best gift is love. Paul says of the other gifts, that however great they are void without it.

Jesus' power to mould men was in his love. He healed the sick and maimed not to prove his power, but his love. Love, instead of being the mere sentiment as some think it, is the great attribute in father, mother, brother or sister which makes life worth living.

Love suffereth long. Love is unselfish, seeketh not her own. Love receives full worth for her expenditure. Her currency is kindness and service; she keeps no books and the privilege of doing an act of kindness is its own compensation. Love is not easily provoked. It knows how to forgive and can forget. God serves us in just this way, by forgetting. That is one of the greatest services God can do for us. There could be no heaven if God in his infinite power did not know how to forget. And if we would be Godlike we must learn how to forget.

Love thinketh no evil, and if it thinketh no evil, it surely does not say it. Love does not gossip, does not deem slander a rich, juicy morsel. Love rejoiceth not in iniquity. It hates sin, whether in self or other people, but loves the sinner. Love finds too much joy in holy things to find heart or time for enjoyment of unholy things. You serve your fellowmen in their highest need by emphasizing in black and white the wrong in their eyes. We can convince other people of the wrongfulness of wrong only as we convince them of the righteousness of right.

Love beareth all things, believeth all things, hopeth all things. Test your love by these its attributes. Greater than talents or gifts of mind or body,—greater than these has been love—love shining humbly in the lives of God's children. Greater than talents has been love in the doing of man's part, in the saving even of the world. James Kober sang at the evening service.

The Christian Endeavor meeting was a voluntary one, the appointed leader being sick, but it proved to be one of the best meetings. The subject was 'Our Little Worries, and How to get rid of Them.'

The Woman's Missionary society will hold its annual praise meeting in the church Saturday afternoon.

## WICKS "CASHED IN" FOR THE LAST TIME

PIONEER GAMBLER CALLED BY  
DEATH.

His Passing Occurred At a Chicago Hospital—Use to Visit Janesville in the Early Days—Once Rich, He Dies in Poverty And Alone.

A dispatch from Chicago, says: Thomas Wicks, the old time Wisconsin gambler, died at the county hospital yesterday morning. He had no family and apparently no friends, and consequently there are no funeral arrangements. If the body is not claimed within a reasonable time it will be disposed of according to law, that is, turned over to a medical college.

Tom Wicks was originally a house painter, and traveled through the South with his paint shop on wheels. That was away back in 1836, when he was just 21 years of age. When he was at Natchez, Miss., he received a letter from his father at Rome, N. Y., urging him to return home and cast his vote for Martin VanBuren for president, as the election threatened to be close and every vote would count. The son sold his migratory paint shop and horses, returned to his old home, cast his first vote and settled down as a farmer.

Early in the forties he came to Wisconsin and engaged in farming in Northern Wisconsin and finally drifted to Milwaukee. That was the day in which many persons spent their leisure time in playing poker and Wicks became an expert at the game. It was in 1849 that Wicks put in his first appearance at the state capital. He first tried his luck in Janesville, but as that proved "hoo-doo" he went to Madison and pulled down \$7,000 as the result of his first attack upon a session of the Wisconsin legislature. This money he brought to Milwaukee and invested it in mining property in the southwestern part of the state and let it go. He continued his Madison enterprise, however, observing regular season, the same as a theater, closing up in the summer for the purposes of repair, and as a rule he lost the money he made in the winter, specializing on 'change during the summer. He was associated in a business way with nearly all the leading politicians of the state. He had a line of credit at a local bank, limited to \$500. Wicks' check was always good for that amount on an evenly balanced bank account, but once having drawn the money, he was shut off short until it was paid.

Ladies who wish to be beautiful should go about it in a common-sense way to secure good health, without which no person can be truly beautiful. No amount of powders, cosmetics or creams can impart lasting beauty to a face so long as the body is filled with disease. That haggard, worn expression can not be obliterated by the "face-carver's" art. Health is essential to beauty and makes beauty more satisfactory to yourself, your family and your friends.

M. Alden Morehouse, the New York Specialist, is here to stay. He is a successful worker in the treatment of lingering diseases. If he can restore you to perfect health you will be just as beautiful as the wise Creator ever intended you to be. A body free from disease is a fit dwelling place for a cheerful spirit which will surely imprint itself upon the face.

## CIVIL SERVICE REFORM.

The question of civil service reform that is being so thoroughly agitated this winter, presents some features that are too frequently overlooked.

It is generally understood that the affairs of national government will continue as in the past to be administered by one of the great national parties. The success of a good administration by either party depends largely upon the loyalty and hearty cooperation of every department of service.

Ordinary business sense suggests that any great corporation that succeeds, must have at the head of each department men who are in sympathy with the policy and methods of the general management. When this is not the case, internal strife and theoretical nonsense invariably result, and the enterprise fails. This is just as true of good government.

The democratic party today is dismantled and discouraged because for the past dozen years it has been cursed with a leader who failed to recognize the elements vital to prosperity and success. Mr. Cleveland in his free trade theories is an exponent of the brotherhood of man. In his attitude toward the Old World he has said practically that humanity demanded employment for English labor at Bristol and Birmingham, at the expense of American labor in our own manufacturing districts. This kind of lunacy has been endorsed and encouraged by such publications as Harper's Weekly and such loyal Americans as Carl Schurz. Wall street has patting the corpulent president on the back and called him a good fellow. While his foreign policy has been suicidal to his country, his home policy of reform has been doubly suicidal to the party that made him a possibility. He will go down in history as the one president, whose bold-headed policy wrecked his party, and whose lack of appreciation, turned to hatred the hearts of thousands of his friends and supporters.

There are plenty of good men in both parties, who are thoroughly competent to fill with credit to the country, public positions of responsibility.

The Gazette believes that the republican party is by far the best equipped to administer the affairs of government. If properly managed the party will continue in power for many years to come. The party, like any other party, will beat its best, when loyalty in every department is the watchword.

Civil service reform is largely theoretical. Office holders endorse it, because they are in, and want to stay. A class of independents advocate it because of their sublime political purity.

The republican party should encourage it, so far as the best public service demands it. Thus the party will do.

The voters have already endorsed the republican assertion that this is a billion dollar country. It is therefore a waste of time for the democrats to be jawing because the appropriations of the present congress will go beyond that amount. No needless appropriations have been made, and none of the money will be paid out except for value received; that's all the people wish to be certain of.

Attorney General Harmon seems to be equally adept at writing an excuse to the house for the failure of this administration to attempt to enforce the anti-trust law, and in preparing a brief for the supreme court arguing that the crew of the alleged filibuster steamer, Three Friends, have been guilty of piracy; and neither role is calculated to increase his popularity with the people.

It would be a good thing if some otherwise reasonable people would only understand that nothing makes more

valuable than the continual preaching of unrest. There are few natures which cannot be made dissatisfied, because there are few—very few—people who believe they have all they deserve to have.

Vice President Stevenson has been candid enough to say that he regrets that his salary would cease with March 4. Mr. Stevenson is a poor man, and although he is a lawyer, none of the big corporations are bidding for his services.

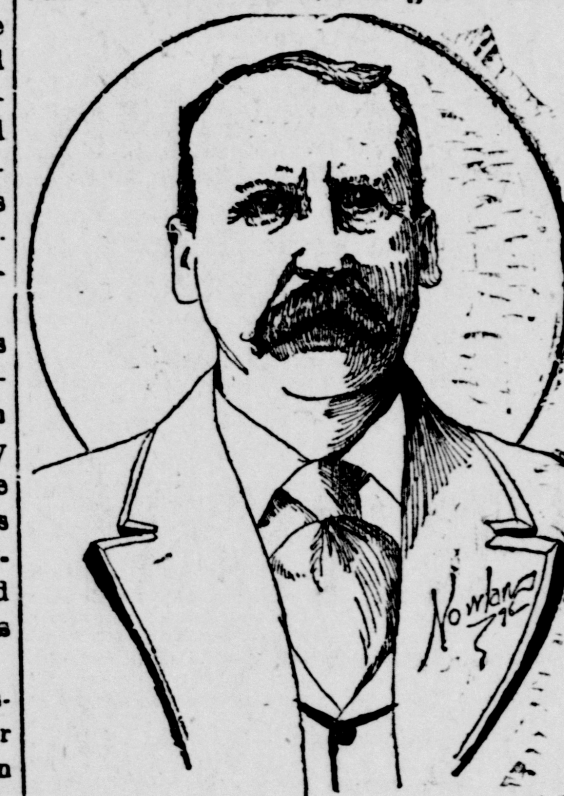

When Hon. Lyman Gage said: "emotional excitement has perverted judgment, and threatens the welfare of the body politic," he struck very near the bull's eye of truth.

Col. Ingersoll says the desire to acquire great wealth is insanity. If he is right, there are lots of insane men at large and Col. Ingersoll is one of them.

Nevada unquestionably needs all the advertising it can get out of that prize fight. It's governor made that plain by his toadying to Jim Corbett.

**F. S. WINSLOW OPENS A STORE**  
Engages in Grocery Business at the New Kent Block.

Ex-Alderman F. S. Winslow has again engaged in business, and has secured the corner store in the new Kent block. He has gone back to his first love—the grocery business—and the store will be known as the "La Vesta grocery," in honor of the building he will occupy. The store will be opened next Wednesday evening, and the necessary shelving—of the finest oak—is all in place, and goods have

been arriving in big wagon loads for several days past. Mr. Winslow and his force are hard at work arranging the stock, but they will have everything ready for the opening on Wednesday night. No Jansville business man is better known than F. S. Winslow, and the people have every confidence in him. "Winslow's grocery" will again become a by-word in Jansville homes, and, as before, it will signify the best goods at the lowest rates.

**MAKE BOYS SHUN THE DEPOTS**  
The St. Paul Company Want no Lads Hanging About.

The St. Paul railway officials will wage war on all boys who loiter about the depots and spend the time in playing about the cars while they are in motion. Chief Hogan has been requested by the company to make arrests.

**DIFFERENCE IN BARBERS.**  
The Swell Ones Downtown Do Not Talk.

It is a well-known fact that barbers vary. But they vary nowhere more than right here in the city of New York, says the New York Tribune. The Bowery barbers hold out low prices as an inducement to put up with some of his eccentricities. He will give you a shave and a haircut and an extemporaneous oration for the sum of 10 cents. The downtown barber in the Wall street district is just as distinct from the uptown barber as he is from the Bowery artist. He is generally just as expert with his tongue as the Bowery shaver, but he has the saving grace of knowing how to use the implements of his trade. The downtown barber is a pretty good judge of character, however. He can tell readily whether his customer is in a conversational mood or not. If his customer wishes to discourse about the weather or the political situation in Zanzibar, he has read the papers enough to know what is going on and he can hold forth in a manner that is truly inspiring. If, on the other hand, his customer is suffering from an attack of indigestion, nobody is quicker to discover it than he. He knows that when a man's digestion is not good he wants nothing so much as to be let alone, and let him alone he does. Still, your downtown barber is guilty of one offense that would speedily lose him his job in some of the uptown shops. When you have got the shave you want for he seldom fails to suggest that you have a shampoo or a haircut. If you have had your mustache trimmed he proposes a shave. He does this not because he wants the money. He doesn't get anything out of it, anyhow. He is merely solicitous for your well-being. He merely advises you for your good, just as your physician does when he tells you you ought to have him cut off your leg. The average uptown barber, while he may be no more skillful at his trade than his fellow of the business district is quite different in other ways. He is generally a model of tactfulness. He answers questions politely and if you remark that it is a

fine day, feeling genial toward the world, replies that it is, no matter if it is raining bricks and mortar. But such admissions as these are about all that you can get out of him. He never asks you if you don't want something besides what you do want. If he should insult you by asking you if you didn't wish a little hair tonic he would be looking for another job soon.

**McKinley's Double in Congress.**

It is now the time for the man who looks like McKinley to get in his fine work. His name is Charles N. Fowler, and he is a Congressman from New Jersey.

Mr. Fowler has the smooth face and Napoleonic cast of countenance which make the President-elect so conspicuous. He has a noble brow, a piercing eye, and a dignified bearing which would do credit to him in the high place of President. But with all his marked advantages of personal appearance he is ill at ease. It is too great a burden to bear to resemble greatness.

"Why," said Mr. Fowler yesterday, "when I was crossing on the ferry-boat to New York a few days ago I noticed a man watching me very closely. Finally he summoned up enough courage to step up to me. 'Are you Mr. McKinley,' he asked, in awed tones. 'No, indeed,' I replied, with a smile. 'Well,' he said, 'I hardly thought that McKinley could get into town without the newspapers having something about his arrival.'"

"I told my experience to Mr. McKinley when I called on him afterward," continued Mr. Fowler, "and he asked me if I made the man apologize. 'I should say not,' I said, 'for he could not have paid me a higher compliment.'"

"But that isn't all. On my way back from Canton the conductor of the dining-car came to me and said that the two ladies who had dined opposite me wanted to know if I was Mr. McKinley. Of course I pleaded not guilty, but I said that as I had just left the President-elect they might have seen a reflection of him in my face."

**PRINCE BECOMES A PRIEST.**

Unfortunate Attachment for Princess Fedora.

Prince Max of Saxony, who has recently taken up his abode in London as a Catholic priest at the Church of St. Boniface, Union street, White-chapel, is the fourth son of Prince George, duke of Saxony, and nephew of the king of Saxony, says the New York Commercial Advertiser. When he became a priest he formally renounced all his rights to the throne to which his father is heir. Prince Max is only 26 years of age, and he quitted the German army to enter a monastery a few years ago. His determination to retire from the world and to enter the priesthood is said to be due to an unfortunate attachment he entertained for Princess Fedora of Schleswig-Holstein. By his modesty he has become very popular among the poor in the east end. His reply to the cheers raised in his honor upon the occasion of his first visit to the "Gesellenverein," or workmen's club, attached to the mission, was: "I come among you not as a prince, but simply as a priest. I am a worker myself, for, to my mind, no honor is so great as that of labor."

**Lassoing a Bear.**

Sigmund Guss has for the past year had a big black bear chained to a post in his back yard. This afternoon at 2:30 the animal got loose and started on a rampage through town. Women and children were assailed, and one little girl was only rescued from a horrible death by the timely arrival of a little fox terrier, which ran up and by barking and snapping at the bear diverted its attention from the child.

Mr. Guss, wishing to recapture the animal alive, offered \$10 to any one who would catch him. A party of Mexican cowboys were in town and took up the offer. After running the animal through town and out among the sage brush for an hour and a half, they succeeded in lassoing him, whereupon the battle began. About seventy-five men were following the cowboys and watching the fun, when the bear, in a desperate struggle to free himself, grabbed one of the ropes in his mouth and cut it in two as clean as could be done with a knife. This left but one rope on him, and he made a ferocious attack upon the man who was at the end of it. The Mexican dropped the rope and ran for his horse, reaching it just as the bear caught him. By a dodge he escaped by leaving his horse and escaping on foot. The next victim was Clark Mosier, who was then the bear's nearest assailant. He was attacked and hugged nearly to death, when Mr. Guss ran up and, placing his revolver at the animal's head, fired, the shot killing the bear instantly. Mr. Mosier, with the exception of a few scratches, escaped unhurt.—Denver Republican.

**Oklahoma Desperado Is Killed.**  
Guthrie, O. T., Feb. 22.—John Grisom, one of the members of the gang who raided the town of Stroude three weeks ago, was killed in a battle with a posse of deputy sheriffs, eighteen miles northeast of Chandler, at daylight Sunday morning.

Time is money, we are told, yet most money is thrown away to kill time.—Flegende Blatter.

## To Cure Nervous Dyspepsia.

To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets.

Interesting Experience of an Indianapolis Gentleman.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame and are surprised that they are not cured by nerve medicine and spring remedies; the real seat of the mischief is, in fact, the stomach; the organ to be looked after.

Nervous dyspepsia often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every other organ; in some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are troubled with loss of flesh and appetite, with accumulation of gas, sour risings and heartburn.

Mr. A. W. Sharper of No. 61 Prospect St., Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. They sometimes gave temporary relief until the effects of the medicine wore off. I attributed this to my sedentary habits, being a book-keeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better, and am better in every way. The above is written not for notoriety, but is based on actual fact."

Respectfully yours,

## CARS LIKELY TO RUN BEFORE VERY LONG

### ANNUAL MEETING HELD THIS AFTERNOON.

Local Directors Say the Citizens Have Done Their Share, and That It Is Now Mr. Blabon's Turn to Act—Officers Are Elected for the Coming Year.

The stockholders in the Janesville street railway met this afternoon at 2 o'clock, at the council chamber. James Shearer presided, and Supt. Mark Cummins was chosen as secretary. The election of officers resulted as follows:

President—George W. Blabon, said so.  
Vice President—James Shearer.  
Secretary and Treasurer—Edwin L. Blabon.

Directors—George W. Blabon, G. M. McKee, James Shearer, F. S. Winslow and W. T. Van Kirk.

The meeting developed nothing new. Superintendent Cummins stated that he could make no report as to the profit and loss last year, as the figures were still in the hands of Mr. Blabon. F. S. Winslow and W. T. Van Kirk said they thought it was now Mr. Blabon's time to act. The citizens of Janesville who subscribed \$2,000 as well as donating two lots, had done their share, they insisted. Superintendent Cummins will notify Mr. Blabon at once to this effect.

The present outlook is that the road will be running before many weeks, and that the power house will be erected on the Spring Brook addition, on the two lots donated.

### WEDDING ANNIVERSARY MARKED

Mr. and Mrs. Frank L. Smith celebrated their twenty-second anniversary Saturday evening, at their home on St. Lawrence Place. A dainty menu was served at small tables, which were tastefully decorated with flowers. The host and hostess were the recipients of numerous mementoes, which will serve to remind them of their twentieth anniversary in years to come. Card tables were then brought forth, and the festivities came to a close at 11 o'clock.

Those present were: Messrs and Mesdames—E. F. Carpenter, W. H. Judd, S. B. Smith, C. C. MacLean, H. G. Carter, J. A. Sutherland, Wilson Lane, D. W. Watt, O. Sutherland.

Mesdames—J. J. Hall, C. B. Bostwick, F. S. Sheldon, Miss Clara Sutherland.

### COTTON CO. EMPLOYEES ARE PAID

Monthly Salary Roll Will Average About \$5,000—Prospects Are Good.

The employees of the Janesville Cotton Company at both the lower and upper mills, were paid their semi-monthly salary a few days ago, the total sum amounting to \$2,325.

The fact that the pay roll is of such proportions every two weeks, is considered an indication that business at the Janesville mills will compare well with the mills throughout the country. The cotton cloth trade for the past year has been considered the poorest known in years, and during the space of time that the local mills were closed, other cotton mills in the east employing thousands of hands were also idle. The prospects for a prosperous trade during the coming season are good. The monthly pay roll in the two local mills will average about \$5,000.

### HIGH SCHOOL TEAM LEAVES

Go to Milwaukee to Play Basket Ball This Evening.

Nine members of the High school basket ball team in charge of Prof. and Mrs. D. D. Mayne left on the 7 o'clock train for Milwaukee. This evening they will compete with the South Side High school team of the Cream City. Those who went from here were:

Theo. Smith, Collin Samuels, Clarence McDonald, Roy Palmer, Henry Carpenter, Len Matthews, Fred Palmer, W. Dougherty, H. Hemmingsway.

### CAUGHT A BIG FISH IN HANDS

Lake Geneva Story Starts the Ball a Rolling This Year.

The summer resort season is approaching, and fish stories are in evidence. The first one worthy of note comes from Geneva lake. John Holmes was fishing through the ice, when a big fish bit off his hook. Holmes wanted the hook, so he grabbed with both hands as the fish turned up its back in the hole, and clutched the funny one in the gills. When he weighed that pickerel, he found that it tipped the scales at 14 pounds.

### DOG OWNER READ THIS PAPER

And The Stolen Canine Will Be Sent Back To Jefferson.

Chief Hogan received a telephone message yesterday from Jefferson stating that the dog that he found in the possession of the three tramps that he arrested last week, was stolen at Jefferson, so the canine will be returned by express. The Jefferson man said he read a notice of the arrest of the tramps who had the dog, in The Gazette.

## WILL GET THE CASH TO RUN THE FAIR

### AGRICULTURAL SOCIETY WILL SURVIVE.

Secretary McKee and Treasurer Jenkins Make a Canvass Among Local Stockholders and Only One Refuses To Pay the Assessment—Money to Pay Up in Sight.

The Rock County Agricultural society will live, and will start in with the fair of 1897 clear of debt.

The responses to the notice of the assessment have been numerous enough to guarantee the survival of the association. Secretary George M. McKee and Treasurer Arthur Jenkins made a canvass among city stockholders this morning and met with excellent success. But one man refused to pay up. Of the 228 shares of stock, fully 100 are owned in this city, so that figures could well be based on the result of the canvass among the city members. When a majority of stockholders are pledged upon the list, the committee can bring those who refuse to settle to time. A dozen business men in the city are willing to buy the shares for the value of the assessment so it will be "pay up or sell out." Hence, Secretary McKee says that a fair will be given next fall and it is confidently predicted that it will break all records.

THE citizens of Burlington were not the honors of the clothing sent to the Janesville associated charities from that city. President W. G. Palmer has received a letter from a rag dealer in the city, who says he sent the clothing himself, having read in The Janesville Weekly Gazette that many poor people were in need.

## New Washington and Baltimore Line.

The Monon Route has established a new through sleeping car line between Washington and Baltimore, via Cincinnati, by the C. H. & D., B. & O., W. and B. O. Ry's. The sleeper is ready for occupancy in Dearborn Station at 9:30 P. M., and leaves at 2:45 A. M. daily, arriving at Washington at 8:47 and Baltimore 7:55 A. M. the following morning. This schedule will go into effect Jan. 24th. ### A Little More Cost Brings Big Profit....

The addressing, folding, inclosing, sealing and stamping of five thousand circulars, with postage, will cost at least \$65, whether the circular is good or bad. Notwithstanding this fixed charge, some strive to save a dollar or two on the cost of printing, although the goods advertised are to be judged by the character of the printing, just as a house is judged by the character of its salesmen. Good printing costs but little more, and that "little more" brings greater returns than any other part of the cost. Order your printing where good work is assured.
